

## Notice of Obsolescence

1<sup>st</sup> March 2012

### Product: Eikon H<sub>2</sub>S UL approved version

Eikon UL has the capability of monitoring O<sub>2</sub>, CO, Cl<sub>2</sub> and NH<sub>3</sub> in a 2 year maintenance free unit. Unfortunately due to the obsolescence of the H<sub>2</sub>S sensor used in the Eikon UL approved instrument we have to withdraw this product from our product range.

As Eikon is a 2 year maintenance free product there will be no support for this product from the date of this notice.

We apologise for any inconvenience this may cause.

If you would like to discuss this any further or have questions regarding you instruments or detecting capability of our other products please do not hesitate to contact us on +44 (0)1235 557700.
