

Date: 04/02/2014

Product: Gasmaster I (1st Generation)

Part Numbers: GMS*/****

Production of Gasmaster I ceased in February 2008; 17 years after the product was launched. A 3rd generation Gasmaster system is now available which can directly replace Gasmaster I systems whilst retaining the original detectors and alarms.

Crowcon will endeavour to maintain spares availability and support for Gasmaster I for the next 12 months, after which the situation will be reviewed. The support period cannot be guaranteed however, as components may become unavailable from suppliers.

Alternative products available from Crowcon are:

Crowcon Gasmaster, now featuring:

- Comprehensive LCD display shows all gas levels simultaneously
- Multi-lingual text display for diagnostics and set-up
- IEC61508 SIL compliant
- mV pellistor detector compatible
- IP65 ingress protection
- 12V/24Vdc outputs
- Suitable for negatively or positively switched alarms
