INTRODUCTION

Crowcon Detection Instruments Ltd will publish an Environmental Policy Statement to demonstrate its commitment to the Environment and to highlight the responsibilities of management and employees.

POLICY

Crowcon Detection Instruments Limited is committed to the care of the environment and will strive to continually improve its environmental performance, by the efficient use of resources, the minimisation of waste and prevention of pollution.

It is the policy of Crowcon Detection Instruments to practice environmental responsibility by observing the following commitments:

- Comply with all relevant legislation, regulations and government guidance.
- Providing a system to develop resource and review environmental objectives, targets and systems to support the policy.
- Meet industry codes of practice wherever possible.
- Ensure that all employees know and understand the policy and what is expected of them.
- Make efficient use of natural resources by minimizing waste and conserving energy and water.
- Seek to use environmentally responsible and efficient means of transport
- Use registered waste disposal companies and licensed sites for the treatment and disposal of waster materials and hazardous products
- Strive to operate in a social and ethical manner and to select suppliers who also operate in an ethical manner.
- Keep sites clean and tidy and maintain good neighbour policy
- Ensure all suppliers, sub-contractors and interested parties are aware of our policy

A copy of this statement will be displayed in suitable areas.

The Policy will be continually reviewed by Management and amended as appropriate with a view to achieving continuous improvement.
