

	Technical Note	Date: 30/06/2010
	Subject: Spectrex 40/40 Series mA Output Change Document Reference: SPE001	

Subject: Spectrex 40/40 series flame detectors.

Effective for all shipments from 1st July 2010, the following changes will be made to the standard settings for the stepped mA output on all 40/40 series flame detectors.

New mA Output Settings	
mA Output	Indication
0mA	Fault
2mA	BIT Warning
4mA	Normal
16mA	Warning
20mA	Alarm

Old mA Output Settings	
mA Output	Indication
0mA	Fault
10mA	BIT Warning
5mA	Normal
10mA	Warning
15mA	Alarm

NOTE: If you wish to have the previous stepped mA settings, please advise at time of order. This cannot be changed easily in the field after shipment.
